PROFESSIONAL SUMMARY

Informatics undergraduate (Semester 6) at Universitas Multimedia Nusantara with a 3.86 GPA, specializing in full-stack web development. Experienced in building clean, maintainable web applications with React, TypeScript, Node.js, and MySQL — including a production-grade platform serving 2,000+ users. Proficient in REST API development, CRUD implementation, payment integration, admin dashboards, and deployment via Docker and CI/CD pipelines. Writes readable, well-structured code and communicates progress clearly in team environments.

EDUCATION

Universitas Multimedia Nusantara, Tangerang

Aug 2023 – Present

Informatics | GPA: **3.86 / 4.00** | Expected Graduation: 2027

Relevant Courses: Data Structures & Algorithms, Database Systems, Software Engineering, Mobile & Web Development.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, Python, Kotlin, Java

Frameworks/Libraries: React, Next.js, Tailwind CSS, shadcn/ui, Express.js, Node.js, Laravel, Jetpack Compose

Databases: MySQL, PostgreSQL, MongoDB, Firebase, Sequelize ORM

Tools & DevOps: Git, GitHub, Docker, GitHub Actions, Nginx, Vercel, Cloudflare, DigitalOcean, Postman

PROJECTS & EXPERIENCE

MAXIMA UMN 2025 – Web Division Coordinator

Jan 2025 – Nov 2025

Campus Orientation Committee, Universitas Multimedia Nusantara

- Built and maintained REST APIs using Express.js, MySQL, and Sequelize ORM for a platform serving 2,000+ users — implementing clean CRUD features and integrating frontend with backend APIs.
- Developed responsive React (TypeScript) frontend with Tailwind CSS and shadcn/ui, following design requirements closely.
- Implemented authentication and authorization via Google OAuth2 and Apereo CAS SSO.
- Integrated Midtrans payment gateway for a complete ticketing and payment system.
- Used Git branches and pull requests throughout development, with documented setup instructions and technical decisions.
- Deployed via Docker, CI/CD with GitHub Actions, Nginx load balancing, Cloudflare Pages, and DigitalOcean Droplets.

TrustEnd – Full Stack Mobile Developer

Apr 2026 – Present

Ongoing Personal Project

- Building a React Native (Expo) employee attendance tracking app with trust scoring, GPS/WiFi validation, and multi-tenant organization support.
- Implemented role-based navigation, Supabase authentication, and Row Level Security policies with PostgreSQL.
- Designed offline sync architecture with retry mechanism and exponential backoff.
- Stack: React Native, Expo Router, TypeScript, Supabase, Zustand, PostgreSQL.

MEDEASE – Full Stack Developer

Jul 2025 – Dec 2025

University Team Project

- Built a full-stack Android medical service app with Kotlin & Jetpack Compose following clean architecture principles.
- Developed admin dashboard with real-time appointment monitoring and full CRUD booking system.
- Implemented Firebase Authentication, Firestore cloud storage, Google Maps integration, and push notifications.

ORGANIZATIONS

MAXIMA UMN 2025 — Web Division Coordinator 2025

Campus Orientation Committee, Universitas Multimedia Nusantara

- Led a 6-member developer team, coordinating task delegation, timelines, and cross-functional collaboration.

OMB UMN 2024 — Person in Charge (PIC) 2024

Freshmen Orientation Committee, Universitas Multimedia Nusantara

- Guided and mentored 20 freshmen through campus orientation covering university rules, values, and academic life.

Hansan Festival 2024 — Security Division, Liaison Officer 2024

Universitas Multimedia Nusantara

- Served as Liaison Officer for guest stars, coordinating communication and ensuring smooth event operations.
